Migrants in Further Education

Multikulturelles
Forum Lünen
Germany

Immigrants enrich our society.

They bring new ideas and methods.

Usually they have knowledge of other cultures and languages.

Abif
Austria

They participate in the construction and development of society just as much as other citizens.

If immigrants are not given equal access to continuing education, the resources they offer will never be fully utilized.

Does any of the following apply to your establishment?

- ◆ We promote our continuing education programmes in more than one language.
- ◆ We send information about our activities and courses to immigrant societies.
 - ◆ We advertise in immigrants' newsletters and/or publications.
 - ◆ We offer courses in language other than the dominant native language.
 - ◆ We employ bilingual teachers.

If so, then your establishment is making continuing education more accessible to immigrants.

If all of the above apply, then your establishment is doing a fantastic job.
